

K-Love radio station is a haven of comfort, peace and encouragement in a life that is hectic and stressed. I drive 45 min. each way daily to work on a freeway. KLOVE helps me stay calm in dealing with traffic. It helps me arrive at work in a positive frame of mind. I don't have to worry that my kids or grandkids will hear something sexual or profane because there is never any of that. As a local resident, KLOVE lets me know of local events coming up. If KLOVE were to be replaced by an LPFM station providing a different kind of programming, I believe my community would miss it very much. I have found no other station in my area that is even half as encouraging and uplifting as KLOVE. I believe it is in the public interest to have KLOVE for people to choose because there is no other like it. No other has the positive music and conversation for our kids to listen to like KLOVE, in the music they like. Please don't take my KLOVE off the air. In my area it is heard on FM 105.5, 89.1, 100.9
